Dear Sir:

This 8-page folder is sent to you in place of the catalogue which we have published for the past 10 or 12 years. So many of our customers take advantage of the good roads to drive to Harrisonburg and buy seeds and other supplies direct from us, that we decided to eliminate the expense of the elaborate catalogue and pass along our savings to you in the form of LOWER PRICES for the same HIGH QUALITY MERCHANDISE.

As evidence of the saving this folder means to you, our seed packages which formerly sold for 10c are now priced at 5c. Prices are likewise drastically reduced on bulk, Field and Garden seeds.

DEPENDABLE SEEDS - in going over this price list you'll note that we have referred to our seeds as DEPENDABLE SEEDS. They have won this reputation for themselves by being TRUE TO NAME...high in GERMINATION and VITALITY.

The HIGH GERMINATION of our seeds can be verified by referring to the State Department of Agriculture, Bulletin No. 299 issued in November 1932 which report shows the standing of the Garden Seed Merchants in the State of Virginia in 1932. We are very proud to say that out of 46 samples officially drawn by the State Commissioner, only one fell below the Virginia Standard which places us well up among the 3 leading Seed Houses in the State of Virginia.

We still solicit mail orders. There's an order blank enclosed for your convenience if you prefer to buy that way. You can rest assured that your order will be filled accurately and delivered promptly.

We trust this price list may be found as convenient and helpful as the catalogue, and should you desire any other information, do not hesitate to call upon us.

Cordially yours,

THE WETSEL SEED COMPANY, Inc.

Please Note: You will also find Wetsel's Dependable Garden and Field Seeds for sale in most every town in the Valley. Ask for WETSEL'S SEEDS at your local Merchant.

THE WETSEL SEED CO., Inc., give no warranty, express or implied, as to the description, quality, productiveness or any other matter of any seeds, bulbs, or plants they send out, and will not be responsible for the crop.
Bush Snap Beans

CULTURE—Plant after danger of frost and the ground is warm. For succession plant every two weeks until September 1st. Cultivate frequently until blossom sets, always when vines are dry. 2 lbs. will plant 120 ft. rows; 60 lbs. to the acre.

**Celery**

**CULTURE**—One ounce to sow a hundred feet, will produce 4000 plants. Sow the seed in February, March or April. Keep the seed bed well watered as celery germinates slowly.

- **Winter Queen** $0.20 .75 $2.50
- **Columbia** $0.25 .90 3.25
- **Golden Hearted** $0.20 .75 2.50
- **Golden Self-Blanching** $0.25 .90 3.25
- **Improved White Plume** $0.25 .75 2.50
- **Giant Pascal** $0.20 .75 2.50
- **Fordhook** $0.30 1.00 3.50

(Prices Postpaid)

**Sweet or Sugar Corn**

**CULTURE**—Plant from April to July, one inch deep in rows three feet apart, leaving eighteen inches between the plants. The small extra early varieties, such as Early Adams may be planted earlier and as close as two feet, providing the soil is very rich or the ground heavily fertilized. As sugar corn is very sensitive to cold and damp weather, and should not be planted until the ground has become thoroughly warm.

- **Calif. Cream Butter** $0.75
- **Los Angeles, Wonderful** $0.75
- **Hanson Improved** $0.75
- **Hale's Best** $0.75
- **Large Hackensack** $0.75
- **Big Boston** $0.75
- **Honey Dew** $0.75
- **Golden Bantam** $0.75
- **Osage or Miller's** $0.75
- **Early Curled** $0.75
- **Golden Evergreen** $0.75
- **Country Gentleman** $0.75
- **Stowell's Evergreen** $0.75
- **Black Mexican** $0.75

*(Sweet corn prices not prepaid. Add 10¢ for first pound, 1¢ each additional pound.)*

**Lettuce**

**CULTURE**—As lettuce will stand considerable freezing, it may be seeded and transplanted out of doors as soon as the soil can be worked in the Spring. For succession, sow every three weeks. One ounce will produce about 1000 plants.

- **Grand Rapids** $0.15 $0.25 $0.40 $1.15
- **All Seasons** $0.15 $0.25 $0.40 $1.15

- **or New York** $0.15 $0.25 $0.40 $1.25
- **Calif. Cream Butter** $0.15 $0.25 $0.40 $1.25

*(Lettuce Prices Postpaid)*

**Muskmelons or Cantaloupes**

**CULTURE**—Prepare hill four to six feet apart, in a rich, moderately dry sandy soil, using well-rotted manure. When frost is over, plant ten to twelve seeds in each hill, about one inch deep, and when well up, thin out, leaving four strong plants to the hill. Do not grow near cucumbers, squash, etc. One ounce plants fifty hills; two lbs. to the acre.

- **Early Hackensack** $0.10 $0.15 $0.30 $0.90
- **Large Hackensack** $0.15 $0.25 $0.30 $0.90
- **Osage or Miller's** $0.10 $0.15 $0.30 $0.90

Special Prices on Onion Plants at Store

We can supply Home Grown Cabbage and Tomatoes at Reasonable Prices.

Seed Potatoes

CERTIFIED and SELECTED
Prices F. O. B. Harrisonburg and Subject to Change. Maine Grown.

EARLY ROSE

This is an early variety, used very extensively everywhere. Not as early as Red Bliss, but larger. Skin a pale pink, but when cooked is pure white. Considered a good yielder. Price: Pk. 35c; bu. $1.10; 10 pk. bag, $2.50.

IRISH COBBLER

For the general market the Cobbler is undoubtedly the variety to grow. As a rule you will find this brings top prices. It might be said that the Cobbler is the standard, all other prices being more or less set by what Cobbler are bringing. Our Cobbler stock is strictly Maine Grown of the very highest quality.

Prices at time of going to press: Pk. 35c; bu. $1.10; 10 pk. bag, $2.50. Five bags $2.40 bag.

RED BLISS or BLISS TRIUMPH

This is a heavy variety is used chiefly for first planting with the idea of producing mature potatoes for the table at the earliest possible date. Are sometimes called "six weeks".

Price: Pk. 35c; bu. $1.35; 10 pk. bag, $3.30.

GREEN MOUNTAIN

Has the reputation of making big crops everywhere and on practically any kind of soil, producing large, handsome, smooth, oval-shaped potatoes with white skin.

Price: Pk. 35c; bu. $1.35; 10 pk. bag, $3.30.

NOTICE—Prices on Potatoes, as most of our customers know, are constantly changing.

5-8-5 FERTILIZER FOR POTATOES and other truck
100-lb. bag $1.60; 500-lb. bag $1.50; Ton $26.

Watermelons

CULTURE—Prepare hill eight to ten feet apart each way by working in thoroughly well-rotten manure or poultry droppings—rich ground gives the plants a good start before insects attack them. When the ground is warm, plant six or eight seeds to the hill, covering an inch deep and when well up, thin out, leaving three strong plants to each hill. Do not grow near pumpkins. One ounce will plant thirty hills; three pounds one acre.

Bermuda Onion Plants

Pride-Pack—We can supply Crystal Wax White or Yellow Bermuda Onion Plants. Nothing less than 100 plants mailed. State if satisfactory to substitute Yellow for White if Yellow in case we are out of the variety ordered when order is received.

CHOICE DAHLIAS
We can supply some of the latest and choicest varieties of Dahlia Bulbs at very reasonable prices.

FOR LAWNS—It promotes strong, healthy growth and a bright green velvet turf. Ten pounds for each 100 sq. feet should be worked into the soil before seeding, or scattered broadcast over old lawn and wet down. No weeds—no litter—quick and pleasing results are certain.

For Flowers, Shrubs, Vines, Trees, etc.—Nothing else will produce foliage and force blooming like WIZARD Sheep Manure. It’s just what nature needs to make things grow. One pound for each 10 square feet of surface well mixed into the soil before planting, and one to two pounds dusted in around vines, shrubs, trees etc., is sufficient.

Prices—Not Postpaid
2 lbs. 15 c; 5 lbs. 30 c; 10 lbs. 50 c; 25 lbs. 80 c; 100 lbs. $2.40; 500 lbs. at $2.25; Ton $4.20.

A NEW and BETTER GARDEN GLOVE
Made from special imported hides processed to render them amazingly soft and pliable. Permit almost barehand freedom yet provide complete leg protection, ideal for garden and similar uses. DIRT-proof—DURABLE—WASHABLE—Four sizes: "Medium" and "Large" for men, "Medium" and "Large" size for men. Price. 75c a pair—2 pairs for $1.40. 80c postpaid.
Selected Field and Ensilage Corn

Field Corn
Selected and Tested. Price subject to change.
LANCASTER COUNTY SURE CROP
This new variety has been giving excellent satisfaction for the past few years. The ear is 10 to 14 inches long with 14 to 16 rows of deep yellow seed. Heigh: 8 to 10 feet. Season 90 to 110 days. Especially adapted for thin soil. 1 pk. (14 lbs.) 50c; 1 bu. (56 lbs.) $1.25; 5 bus. $1.20 per bu.

BLOODY BUTCHER
Selected Red and Yellow
A few years ago this Corn was used very little. In recent years Bloody Butcher has become very popular because of its qualities and its ability to produce a crop under adverse conditions. 1 pk. (14 lbs.) 40c; 1 bu. (56 lbs.) $1.25; 5 bu. lots $1.20 per bu.

Yellow Corns
REID’S YELLOW DENT
One of the most popular yellow dent varieties. Ears average 9 to 11 inches in length, filled with deep kernels of a rich golden yellow which almost entirely cover both butt and tip ends. Matures in 115 days. 1 pk. (14 lbs.) 40c; 1 bu. (56 lbs.) $1.25; 5 bushels at $1.20 per bu.

GOLDEN GOARD SEED DENT
This is one of the old reliable favorably known varieties in this part of the state. Sometimes called White-Cap. Ears large, grains large, color bright yellow on ear, but shows up as a rich yellow when shelled. Fodder medium to small, depending on soil. Also sometimes known as “poor land” corn, or “low land.” 1 pk. (14 lbs.) 45c; 1 bu. (56 lbs.) $1.25; 5 bushels at $1.20 per bu.

White Corns
IMPROVED BOONE COUNTY or JOHNSON COUNTY WHITE
Originated in Boone County, Indiana, from which it takes its name. It is probably the best known White Dent variety in the central corn belt; does equally well in Pennsylvania. Ears average 10 inches in length and from 7½ to 8 inches in circumference, with 18 to 24 rows; both cob and kernel are white. Matures in 110 to 120 days. 1 pk. (14 lbs.) 40c; 1 bu. (56 lbs.) $1.25; 5 bushels $1.20 per bu.

Sericea Lespedeza
A perennial, once established will stand indefinitely. Very hardy and drought resistant. Thrives on thin acid soil. Very leafy and a heavy seeder. Will make two cuttings the first year. A heavy and deep root system. Plant in forage instead of danger of killing frost. Slow to 2 lbs. seed per acre, in three foot rows, and cultivate first year. Cover about eighth inch. Inoculate using the cow pea inoculation.

Certified—12c lb. 1c less in 25 lbs. or more.
Doddre Seed—10c lb.; 1c less in 25 lbs. or more.

Increase Farm Profits
By Lowering Product Cost.

SEMESAN JR.—For seed, field and sweet corn. Simple, quick, effective. Costs only 25c an acre. Protects seed from rotting in cold wet soil, makes earlier planting possible. 4 oz. 50c; 1 lb. $1.75. Cannot be mailed.

IMPROVED SEMESAN BEL—For seed potatoes. This quick dip treatment has cut treating costs to 1½c to 3c per bushel of seed. 1 lb. Improved Semesan Bel will treat 60 to 80 bushels of seed potatoes. 4-oz pkg. 50c; 1 lb. $1.75. Cannot be mailed.

SEMESAN—Makes seeds healthy. Semesan is the answer to the disease problems for the farmer and the flower grower.

Rape Seed
DWARF ESSEX
This crop is very highly recommended for cattle, sheep, hogs and poultry. Sow in early spring to 5 pounds per acre in drills, or 3 to 10 pounds per acre broadcast. Also an excellent green to use on the table.

Buckwheat (Japanese)

SEMESAN (Improved) For Oats, Wheat and Barley. Ask for prices.

ACME EGG SCALES

Acme Egg-Grading Scales will accurately grade all eggs ranging from 16 ounces per dozen to 32 ounces per dozen.

Price (Add 5c for postage)....................$2.50

NEWtown Drum Oil Brooder

This Newtown Brooder has a stove shaped like a drum. It does everything a coal-burning brooder will do, with the greater convenience of oil for fuel. It has the capacity to provide more heat than will ordinarily be needed. The rate of burning is automatically controlled by the accurate thermostat. Whether the stove burns high or low, it is safe and dependable.

The stove is built to develop maximum heat from the fuel. Distillate of 36 degrees alcohol is used, making the brooder very economical to operate. The front half of the canopy can be raised. This gives easy access to the floor. And the canopy is shaped to radiate warmth over a big area. Furthermore, it draws away foul air and odors. Your chicks are always comfortable under and around this brooder. All conditions are favorable to their health and growth.

See the Newtown "Drum Type" Oil Brooder before you decide on what you're going to buy. Examine it at the first opportunity.

CLOVERS and GRASSES

NOTE—Fourth bushel at bushel rates. Less than fourth bushel lots at pound prices. Bags 20c. These offers are made for your convenience. Don't overlook them.

CLOVERS

(Our Red and Sapling Clover is Valley grown—reclaimed by us—Tested.)

MAMMOTH OR SAPLING

Purity 98.50 to 99.00

Mammoth or Sapling Clover is widely known and used very extensively, especially when clover is seeded with Timothy, and is desired to cut for hay. Mammoth Clover being later than old time Red, matures much more evenly with Timothy. It makes a much more vigorous growth resulting in greater tonnage per acre. Has the disadvantage of not producing a large growth after first cutting, for this reason is not as good a soil improver as Red Clover. Price subject to change, sacks 20c extra, per lb.; bushel, $6.75; 5 bus. $6.50 per bu.

MEDIUM OR RED CLOVER

Purity 98.50 to 99.00

Red Clover, sometimes referred to as Old Time Red or Little Red Clover, need no description with the average farmer. It has for many years been the leading clover in farm rotation. Matures early and produces a second crop, affording late pasture, a crop of seed, or if left on the ground is fine for improving soil. It produces a nitrogen needed for soil improver as Red Clover.

W. B. SWEET CLOVER—Unhulled

Purity 99.00

Lb. 6c; 5-lbs. 30c; 10-lbs. 55c. Winter Sow for forage, Summer Sow for seed. Early Maturity

Purity 98.00

Lb. 30c; 5 Lbs. $1.40

CRIMSON CLOVER

Purity 98.50

Lb. 10c; Bu. $5.40

Hairy Vetch

CULTURE—Vetch may be sown as early as the ground will permit in the spring, at the rate of 15 pounds to the acre, with one bushel of oats to hold it up. May be sown same way in fall, only using Winter rye in place of oats. Vetch is a wonderful land improver. The oats and rye hold the vetch up, and improves the quality of hay. Not Postpaid.

Lb. 1lc. 50 lbs and up 10c per lb.

Cow Peas and Soy Beans

Cow Peas

RECLEANED

There will be an unusual demand for Cow Peas this summer, as well as most forage crops. There is three reasons for this demand. First, the Valley farmers need some quick crop to supply hay for next winter. Second, Cow Peas are cheaper, or as cheap as Soy Beans. Third, farmers are realizing that Cow Peas will improve the land a little more than Soys.

Bu. 5-Bu. 10-Bu.

Mixed (Clay) $1.25 $1.20 $1.10

Swedish Select Oats

Those who prefer a white oat will make no mistake in sowing Swedish Select. One of the State Experiment Stations reports in a test covering several years an average yield of slightly more than 10 bushels to the acre more than varieties tested, and that the proportion of kernel to the whole grain averaged about 75 per cent. It has given especially good crops on light soils without any tendency to lodge, yet the straw is not large in proportion to the grain, which is large, thick and plump. Not recommended for the coast section.

Bushel 45c; 10-bushel lots at 43c per bu. (Bag included)
